**Listing of EPA-registered Spot-on
Flea and Tick Products**

May 15, 2009

All Spot-On Flea and Tick Pet Products

Note to consumers:

- The list of names of spot-on products that follows is as complete as possible at the time of publication.
- Because flea and tick control products may be marketed under different names and by different companies, the list below may not reflect recent changes to product names.
- The best way to identify a product is to use the EPA Registration Number (Reg. No.) that appears on label. This unique identification number must appear on every EPA-registered product.
- Consumers are urged to use the EPA Registration Number to accurately identify products. Registration numbers are provided below in the right-hand column.
- Please note that the EPA Reg. No. on a product package may appear as a 2-part number, such as 1234-56 or a 3-part number, such as 1234-56-78910. 3-part numbers represent distributor products, and the last number in the sequence reflects the distributor company. In the case of distributor product

Company	Product Names	Reg. No.
